## The PT-262 Advantage

TVS Electronics firmly believes that there is an increased mindset among the Indian retailer on the 'Willingness to Automate'. Identifying the need for a compact automation device to suit the daily billing needs of the small Indian retailer, TVS Electronics has launched IndiPOS PT-262 Point-of-Sale Terminal - which represents a true reflection of the Indian retailer and empowers them to operate with maximum comfort.

The diversity in the Indian retail formats is unique to its customer clusters and requires customised technology offerings both in terms of hardware and software. Simplicity and compactness make PT-262 the preferred billing terminal for the small Indian retailer. This product has been designed and customised to work in the most challenging terrains. The robustness of this product helps it to operate in the 'Heart of India' environment prone to dust, fluctuating voltage and frequent power cuts.
